NRBU 100: Web Presence for Nursing

 Credits: 39 CE hours

 Length: 13 modules

 Tuition: \$199 USD

Empowering Nurses for the 21st Century

OVERVIEW

This 13 module (39 CE credit) course introduces self-employed nurses, nurses designing infrastructure sites, and health professionals wishing to provide health related web sites on the internet to the theory, application, ethics, and process of creating web sites for business, collaboration, e-health, and client education.

Practice includes learning how to plan and create web environments to provide health related information and/or showcase a nursing business.

OBJECTIVES - Learners will:

- Apply theory related to computer-human interfaces, design and aesthetics, e-commerce, ethics, reliability and accuracy to web environment creation.
- Explore the dynamics of planning health related web environments and/or nursing related commercial web sites.
- Apply principles of usability, readability, design, aesthetics, metaphor, color, use of text and white space, navigation, ethics, and commerce to web site development.
- Create a selected nursing commerce or health related web environment.
- Practice HTML, CSS, graphic manipulation, multimedia application, forms and commerce tools applications.
- Explore the use of online environments for instruction, content sharing, commerce, and provision of health related services.
- Plan and create an online nursing site.
- Apply, engage in and assess the utility of this online nursing site.

More Details

All courses are done completely online in our learning management system, including all materials, activities, assessments, assignments and interactions. You will receive electronic copies of all course materials. When done your course, you will receive a digital certificate of completion.
