NRED 103: Nursing Informatics in the Classroom

 Credits: 39 CE hours

 Length: 13 modules

 Tuition: \$199 USD

Empowering Nurses for the 21st Century

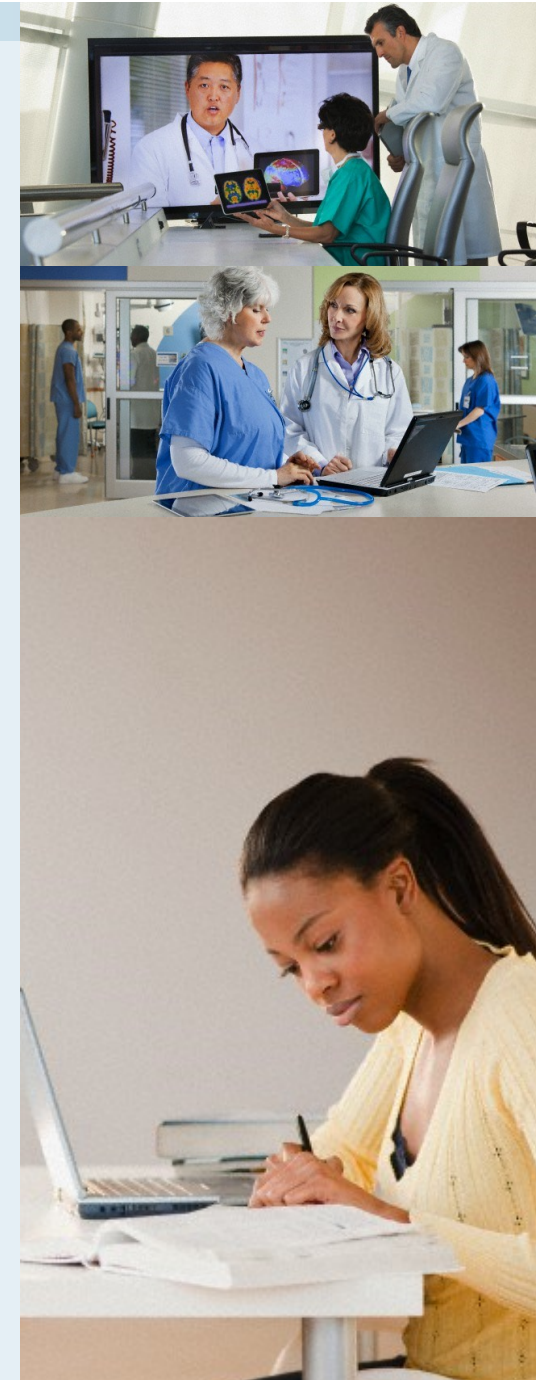

OVERVIEW

This 13 module (39 CE credit) course introduces nursing educators, scholars, leaders, and students to the theory, application, technical skills and process of integrating nursing informatics into nursing education and practice.

Practice includes learning how to customize the online environment to teach a selected nursing topic. The principles of learning styles, adult learning, virtual pedagogy, e-learning, lesson plans, document sharing, assignment and portfolio development, will be applied to the customization of the online learning environment within a select CMS interface.

OBJECTIVES - Learners will:

- Apply theory related to virtual education & pedagogy, learning styles, portfolios adult learning, lesson planning, human-computer interfaces, collaboration & critical reflection.
- Explore the dynamics of planning lessons, portfolio development, online teaching and assessment
- Apply principles of critical reflection, collaborative activities, online teaching and learning to customize online learning
- Customize an online CMS.
- Practice lesson & assignment planning, application of learning styles
- Explore the use of online learning for instruction, critical reflection, decision making, collaboration & networking
- Plan and customize an online nursing education environment and evaluate utility of the final product.

All courses are done completely online in our learning management system, including all materials, activities, assessments, assignments and interactions. You will receive electronic copies of all course materials. When done your course, you will receive a digital certificate of completion.

ASSESSMENT

Learners are assessed for their work on a variety of content-driven assignments including:

- * Forums
- * Worksheets
- * Journals

- * Quizzes
- * Goal Setting
- * Planning Tools

- * Databases
- * Self Assessments
- * Learning Space Development

NRED 103 MODULES

Module 1:

Technology and the Curriculum:
Customizing the "Fit"

Module 2

Planning Informatics Theory & Practice
Components

Module 3:

Leveling Informatics Theory & Practice
Experiences across the Curriculum

Module 4:

Selecting Theory & Practice Lesson Topics

Module 5:

Setting Objectives & Preparation
Expectations in the Learning Environment

Module 6:

Classroom and Online Activities for
Theory and Practice

Module 7:

Appealing to Multiple learning styles in
mixed Learning Settings

Module 8:

Planning the Delivery of Integrative
Content

Module 9:

The Issue of Faculty Preparedness

Module 10:

Integrated Online Delivery and Planning

Module 11:

Practical Set-up of Planned Curriculum
in the Virtual Setting: Pt 1

Module 12:

Practical Set-up of Planned Curriculum
in the Virtual Setting: Pt 2

Module 13:

Practical Set-up of Planned Curriculum
in the Virtual Setting: Pt 3
