

# A CULTURAL OR FAMILY ARTIFACT

Digital Story telling # 3

# Cultural or Family Artifact

- Our third story will help you to explore a cultural or family heirloom or special item. If you do not have a special item, you can focus this story on a cultural tradition that your family upholds.

# Cultural or Family Artifact

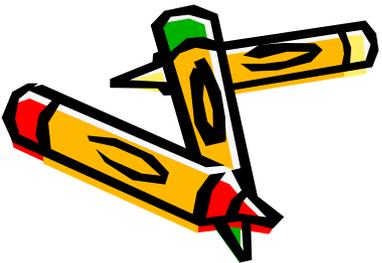

- The item could be anything that is special to your family - perhaps because it has been in your family for many years; or it reminds your family of special times in the past; or because it is rare and valued, and your family wants to keep it safe for years to come (and perhaps pass it on to you or others in your family).

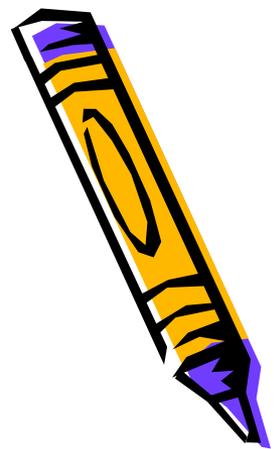

# Cultural or Family Artifact

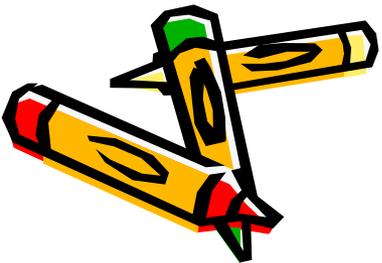

- If you are focusing on a tradition instead, choose one that is very special to your family: one that they intend to continue to celebrate or honour for years to come.
