NRED 200: Virtual Education for Nursing: 2

 Credits: 39 CE hours

 Length: 13 modules

 Tuition: \$199 USD

Empowering Nurses for the 21st Century

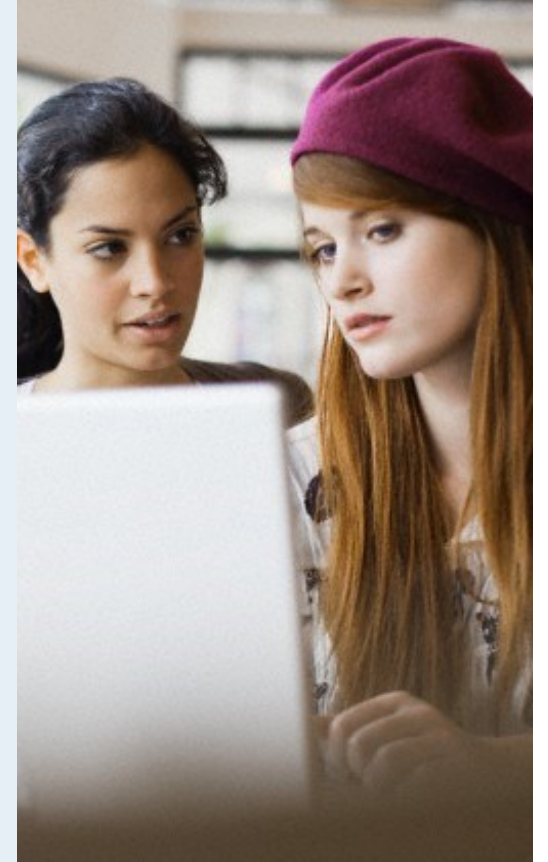

OVERVIEW

This 13 module (39 CE credit) course provides nursing educators, scholars, leaders, and students with advanced theory, pedagogy, applications, dynamics and process activities for teaching nursing in the virtual environment. The learner will design an advanced level learning environment for nursing instruction as part of the assessment process.

The principles of critical reflection and thinking, collaborative activities, multimedia development, and virtual poll, quiz and online project development will be planned, incorporated and applied to design an advanced nursing learning environment

OBJECTIVES - Learners will:

- Apply theory related to virtual pedagogy, advanced web design, human-computer interfaces, collaborative interaction and critical reflection.
- Explore the dynamics of planning an advanced online learning environment.
- Apply principles of critical reflection, collaboration, multimedia, and virtual polls, quizzes, tests, and project work.
- Customize a course management system.
- Practice advanced online development.
- Explore the use of online learning environments for instruction, critical reflection, decision making, networking.
- Apply, engage in and assess the utility of this online education environment.

More Details

Nurses are encouraged to enroll in NRED 100 before taking this course, unless they are very experienced in online teaching and theory.

ASSESSMENT

Learners are assessed for their work on a variety of content-driven assignments including:

- * Forums
- * Worksheets
- * Journals

- * Quizzes
- * Goal Setting
- * Planning Tools

- * Databases
- * Self Assessments
- * Learning Space Development

NRED 200 MODULES

Module 1:

Introduction to Virtual Pedagogy in Online Learning

Module 2

The Semantics of Teaching with Course Management Systems: Pt 1 .

Module 3:

The Semantics of Teaching with Course Management Systems: Pt 2

Module 4:

Aesthetics and Interactivity in Virtual Nursing Education

Module 5:

Evaluation in an Online Environment

Module 6:

Human-Computer Interfaces, Embodiment within a Disembodied Environment

Module 7:

The development of Virtual Learning Communities of Practice in Nursing

Module 8:

Multimedia in Virtual Nursing Education

Module 9:

Collaborative Technologies, Networking and Cyberculture

Module 10:

ePortfolios applied to Virtual Nursing Education

Module 11:

Educating for Nursing Informatics Competencies

Module 12:

Education in Nursing Informatics for Research and Project management

Module 13:

Planning for Continuing Competencies in Nursing Informatics
